

# CHIMNEY CHAMP

CHIMNEY VENTILATOR FOR BRAAI'S AND FIRE PLACES

## **BENEFITS:**

- ◆ Extracts irritable smoke and odours
- ◆ Prevents down-draughts and rain entering the chimney
- ◆ Creates quick and efficient heat by drawing the fire
- ◆ Ensures a smokeless fire
- ▶ Chimney Champ extracts unwanted smoke effortlessly

## **Chimney Champs are suitable for:**

- ◆ Built-in Braai Areas
- ◆ Built-in Fire Places
- ◆ Chimney's of Jetmaster or similar products
- ▶ Chimney Champ transforms your entertainment area into a smokeless and relaxed environment.

## **KEEPING IT SMOKELESS**

### **PRODUCTS**

The Chimney Champ product is South-African Manufactured and designed to extract smoke from braai areas and fireplaces. The Unique and patent pending bearing system of the Chimney Champ has been tested to extract smoke of a temperature up to 250°C.

### **CONCEPT**

The Chimney Champ is actuated by convection (upwards pressure of rising heat through the chimney) and is also assisted by the wind to extract. The rotating dome of the Champ creates a positive reaction which extracts unwanted and irritable smoke through the chimney of braai areas and fireplaces. This reaction also causes the Chimney Champ to draw the fire which creates quick and effective smokeless heat.

### **CONSTRUCTION**

Construction of 0.6mm galvanised steel, the Chimney Champ smoke extractor is also coated with Variol self edging primer to prevent the Steel from corroding against heat of up to 250°C.

### **SIZE & DIMENSIONS**

	300mm	350mm
WEIGHT	6.1kg	7.9kg
LENGTH	350mm	420mm
WIDTH	440mm	465mm
HEIGHT	50mm	420mm
